Dear Hiring Manager,

I am writing to express my interest in a position within your organization where I can contribute my skills in cybersecurity, IT, and cross-functional support. With a master's degree in Cybersecurity from the University of Hertfordshire and a strong foundation in computer applications, I bring a unique blend of technical proficiency and interpersonal strengths that would be valuable to your team.

My academic background has equipped me with in-depth knowledge of penetration testing, digital forensics, incident response, and network security. For my dissertation, I conducted a detailed analysis on *Keylogger Analysis and Development*, which further enhanced my analytical and problem-solving skills. I am also proficient in multiple programming languages including Java, Python, PHP, and C/C++, and have hands-on experience in full-stack web development.

Professionally, I have served as an Internet Analyst, where I evaluated online content and ensured its alignment with client requirements, enhancing my attention to detail and data analysis abilities. Additionally, my roles as a Trading Assistant at J Sainsbury's PLC and as a Nursing Assistant Trainee have strengthened my customer service, communication, and teamwork skills.

I am a highly adaptable individual, capable of thriving in both technical and people-focused roles. My goal is to leverage this unique combination of skills to contribute effectively to your organization's success while continuing to grow within the field of cybersecurity and IT services.

Thank you for considering my application. I would welcome the opportunity to further discuss how my background, skills, and enthusiasm align with your team's goals. I am available for an interview at your convenience and can be reached via phone or email.

Yours sincerely,

Rohan Parmar

Professional Profile

MSc Cybersecurity graduate with hands-on experience in penetration testing, digital forensics, and incident response. Skilled in SIEM, Kali Linux, Metasploit, and network defence techniques, with strong analytical skills demonstrated through a dissertation on Keylogger Analysis & Development. Proficient in Python and Bash for security automation. Currently pursuing a Diploma in Cyber Security and seeking an entry-level opportunity in SOC operations or cybersecurity.

Core Cybersecurity Skills

Security	Penetration Testing • Digital Forensics • Incident Response • Vulnerability Assessment
Security Tools	Kali Linux • Metasploit • Wireshark • Nmap
Operating Systems & Cloud	Windows 10/11 • Linux (Kali) • AWS • Azure
Security Programming	Python • Bash
Professional Skills	Communication • Problem-solving • Teamwork • Active listening

Career Direction

Target roles: SOC Analyst / Cybersecurity Analyst. Key areas of interest include threat detection, vulnerability management, incident response, penetration testing, and security monitoring.

Experience

Internet Analyst | Revokarmahub Software & Services Ltd.

Vadodara, India | 2019–2020

- Reviewed and optimized web content accuracy for clients while ensuring compliance with specifications.
- Strengthened technical troubleshooting, analytical, and documentation skills.
- Collaborated with teams using Agile stand-ups and reporting tools.

Cybersecurity Academic Focus

The MSc Cyber Security programme provided focused study in areas directly aligned with entry-level security roles:

- Penetration Testing – understanding security testing approaches and vulnerability identification.
- Digital Forensics – examining digital evidence and supporting forensic investigation.
- Incident Response – understanding processes for responding to cybersecurity incidents.
- Network Security – applying security concepts to networked environments.

Dissertation

Keylogger Analysis and Development

MSc dissertation focused on the analysis and development of a keylogger, demonstrating practical investigation and security-focused technical work. The dissertation supports the portfolio's emphasis on endpoint security, analysis, and understanding how malicious techniques operate.

Technical Toolkit

Kali Linux

Security-focused Linux environment used for cybersecurity and penetration-testing activities.

Metasploit

Penetration-testing framework included in the user's practical security toolkit.

Wireshark

Network analysis tool used to inspect and understand network traffic.

Nmap

Network discovery and security scanning tool included in the user's toolkit.

Education

Master of Science in Cyber Security

University of Hertfordshire, Hatfield, United Kingdom | 09/2020–11/2022

Relevant coursework: Penetration Testing, Digital Forensics, Incident Response, Network Security.

Dissertation: Keylogger Analysis and Development.

Master of Computer Application

Parul University, Vadodara, Gujarat, India | 07/2016–03/2018

Relevant coursework: Advanced Java, Web Development, Python.

Bachelor of Computer Application

KSV University, Gandhinagar, Gujarat, India | 07/2013–05/2016

Relevant coursework: C, C++, PHP, Web Development.

Certification

Diploma in Cyber Security

In Progress — 2026

What I Bring to a Security Team

- A postgraduate cybersecurity education with practical exposure to security testing, forensics, incident response, and network security.
- Hands-on familiarity with industry-relevant security tools including Kali Linux, Metasploit, Wireshark, and Nmap.
- Programming capability in Python and Bash to support security-focused scripting and automation.
- Strong analytical, troubleshooting, communication, teamwork, and documentation skills.
- A clear career focus on SOC and cybersecurity analyst responsibilities.

Career Objective

To begin a professional cybersecurity career where I can apply my academic knowledge and practical security skills to support threat detection, vulnerability management, security monitoring, and incident response while continuing to develop as a cybersecurity professional.

Letter of Recommendation

To Whom It May Concern,

I am pleased to recommend Rohan Parmar for opportunities in the field of Cybersecurity, particularly roles such as SOC Analyst, Cybersecurity Analyst, or Junior Cybersecurity Professional.

Rohan has completed a Master of Science in Cyber Security from the University of Hertfordshire, United Kingdom, where he developed knowledge and practical skills in areas including penetration testing, digital forensics, incident response, and network security. His academic background demonstrates a strong foundation in cybersecurity concepts and security operations.

During his studies, Rohan completed a dissertation on "Keylogger Analysis and Development," which demonstrates his ability to investigate cybersecurity concepts through practical and analytical work. He has also developed familiarity with security tools and technologies including Kali Linux, Metasploit, Wireshark, and Nmap, as well as Windows, Linux, AWS, and Azure environments.

Rohan also possesses programming and scripting skills in Python and Bash, which can support security automation and technical problem-solving. In addition to his technical capabilities, he demonstrates important professional qualities including communication, problem-solving, teamwork, and active listening.

His previous professional experience as an Internet Analyst at Revokarmahub Software & Services Ltd. helped him develop technical troubleshooting, analytical, documentation, collaboration, and reporting skills. His experience working with teams in an Agile environment further demonstrates his ability to work effectively in a professional setting.

Rohan is a motivated cybersecurity graduate who is eager to develop his professional career and contribute to an organization's security operations. I believe his academic background, technical knowledge, analytical approach, and willingness to learn would make him a valuable addition to a cybersecurity team.

I therefore strongly recommend Rohan Parmar for suitable entry-level opportunities in Cybersecurity, SOC operations, security monitoring, vulnerability management, penetration testing, or related areas.

Please feel free to contact me should you require any further information regarding his qualifications and capabilities.

Sincerely,

Mr. Mitesh Dodia

Senior Technology Leader

EXPERIENCE CERTIFICATE

TO WHOM IT MAY CONCERN

This is to certify that Mr. Rohan Parmar was employed with Revokarmahub Software & Services Ltd., Vadodara, Gujarat, India, as an Internet Analyst from 2019 to 2020.

During his employment, Mr. Parmar was responsible for reviewing and optimizing web content for clients while ensuring accuracy, quality, and compliance with specified requirements. His responsibilities also involved identifying and resolving content-related issues, performing technical troubleshooting, maintaining accurate documentation, and supporting reporting activities.

As an Internet Analyst, his key responsibilities included:

- Reviewing and validating web content for accuracy and quality.
- Optimizing online content according to client requirements and specifications.
- Identifying and resolving issues through systematic troubleshooting.
- Maintaining appropriate documentation and reports related to assigned work.
- Collaborating with team members through Agile stand-up meetings and reporting processes.
- Following established procedures and quality requirements while completing assigned tasks.
- Applying analytical and problem-solving skills to identify and resolve work-related issues.

During his tenure, Mr. Parmar demonstrated analytical thinking, attention to detail, troubleshooting ability, documentation skills, teamwork, communication, and process compliance.

His professional experience as an Internet Analyst helped develop a strong foundation in web-based operations, technical troubleshooting, analytical review, and structured reporting. These skills are also transferable to technology and cybersecurity-oriented roles.

Mr. Parmar completed his employment with the organization in 2020. We appreciate his contribution during his tenure and wish him every success in his future professional career.

This certificate is issued upon his request for employment verification and professional purposes.

For Revokarmahub Software & Services Ltd.

Subject: Letter of Interest for Cybersecurity Position

Dear Hiring Manager,

I am writing to express my interest in an entry-level Cybersecurity Analyst position within your organization. I hold a Master of Science in Cyber Security from the University of Hertfordshire, United Kingdom, with academic and practical exposure to penetration testing, digital forensics, incident response, network security, and vulnerability assessment.

During my MSc, I developed a strong foundation in cybersecurity and completed my dissertation on Keylogger Analysis and Development, which strengthened my understanding of security threats, analysis, and defensive techniques. I have hands-on familiarity with security tools and technologies including Kali Linux, Metasploit, Wireshark, and Nmap, along with knowledge of Windows, Linux, AWS, and Azure environments.

I also have professional experience as an Internet Analyst at Revokarmahub Software & Services Ltd, where I reviewed and optimized web content, performed analytical and documentation-related tasks, and collaborated with teams using Agile practices. This experience helped me develop strong analytical, troubleshooting, communication, teamwork, and documentation skills.

I am particularly interested in beginning my career in a role where I can contribute to security monitoring, threat detection, vulnerability management, incident response, and security analysis while continuing to develop my technical skills. I am also currently pursuing a Diploma in Cyber Security, demonstrating my commitment to continuous learning and professional development.

I would welcome the opportunity to discuss how my cybersecurity education, technical knowledge, analytical abilities, and previous professional experience could contribute to your organization's security team. I am enthusiastic about starting my cybersecurity career and would be grateful for the opportunity to demonstrate my capabilities.

Thank you for considering my application. I look forward to hearing from you.

Sincerely,

Rohan Parmar

Follow-up Letter

Dear Hiring Manager,

Thank you for taking the time to interview me for the Cybersecurity Analyst/SOC Analyst position. I sincerely appreciate the opportunity to discuss my background, skills, and interest in joining your organization.

Our conversation further strengthened my interest in the position and in contributing to your cybersecurity team. With an MSc in Cyber Security from the University of Hertfordshire, along with knowledge and hands-on experience in penetration testing, digital forensics, incident response, vulnerability assessment, and network security, I am enthusiastic about applying my skills in a professional environment.

I also bring previous experience as an Internet Analyst, where I developed strong analytical, troubleshooting, documentation, and teamwork skills. In addition, my technical knowledge includes Kali Linux, Metasploit, Wireshark, Nmap, Python, Bash, Windows, Linux, AWS, and Azure.

I am particularly interested in developing my career in cybersecurity and contributing to areas such as threat detection, vulnerability management, security monitoring, and incident response. I would be grateful for the opportunity to become part of your team and continue developing my technical capabilities.

Thank you again for your time and consideration. I look forward to hearing from you regarding the next steps in the recruitment process.

Kind regards,

Rohan Parmar

To,

Mr. Viral Raval

Bosch Group

JMC House, Parimal Garden, Ellis Bridge, Ahmedabad, India - 380006

Subject: Acceptance of Job Offer – Cyber Security Analyst

Dear Mr. Viral Raval,

I am writing to formally accept the offer for the position of Cyber Security Analyst at BOSCH Group. I am grateful for the opportunity and sincerely appreciate the confidence you have shown in my skills and capabilities.

I am excited to join your organization and contribute my knowledge and skills in cybersecurity, penetration testing, digital forensics, incident response, vulnerability assessment, network security, and security tools such as Kali Linux, Metasploit, Wireshark, and Nmap. My MSc in Cyber Security from the University of Hertfordshire, along with my previous experience as an Internet Analyst, has provided me with a strong technical and analytical foundation.

I look forward to working with the team, developing my professional skills, and contributing effectively to the organization's cybersecurity objectives. I am particularly enthusiastic about gaining practical experience in areas such as threat detection, vulnerability management, security monitoring, and incident response.

I confirm my acceptance of the terms and conditions outlined in the job offer and look forward to joining BOSCH Group on 17th, August, 2026.

Thank you once again for this opportunity. I look forward to becoming a valuable member of your team.

Yours sincerely,

Rohan Parmar

To,

Hiring Manager

BOSCH Group

JMC House, Parimal Garden, Ellis Bridge, Ahmedabad, India - 380006

Subject: Declining the Job Offer

Dear Hiring Manager,

Thank you very much for offering me the position of Cyber Security Analyst at BOSCH Group. I sincerely appreciate the time and effort you and your team invested throughout the recruitment and interview process.

After careful consideration, I have decided to respectfully decline the offer. This was not an easy decision, as I am grateful for the opportunity and for the confidence you have shown in my skills and qualifications.

As an MSc Cyber Security graduate with knowledge and hands-on experience in penetration testing, digital forensics, incident response, vulnerability assessment, SIEM, Kali Linux, Metasploit, Wireshark, and Nmap, I have decided to pursue an opportunity that more closely aligns with my long-term career goals in Cybersecurity, SOC Analysis, and Incident Response.

I greatly appreciate the opportunity to learn more about BOSCH Group and your team. I hope we can remain in contact and potentially have an opportunity to work together in the future.

Thank you again for your understanding and consideration. I wish BOSCH Group and your team continued success.

Sincerely,
Rohan Parmar

Subject: Request for Leave of Absence

Dear Sir/Madam,

I am writing to formally request a leave of absence from my position at Revokarmahub Software & Services Pvt Ltd from 18th, August, 2026 to 20th, August, 2026 due to personal reasons.

I understand the importance of my responsibilities and will make every effort to complete or appropriately hand over my current tasks before the commencement of my leave. I will also coordinate with my team to ensure a smooth transition and minimize any disruption to ongoing work.

I have a background in cybersecurity, with an MSc in Cyber Security from the University of Hertfordshire, and previous professional experience as an Internet Analyst. I am also currently pursuing a Diploma in Cyber Security.

I kindly request you to consider and approve my leave for the above-mentioned period. I would be grateful for your understanding and support. Please let me know if any additional documentation or formalities are required to process my request.

Thank you for your consideration.

The Manager
Revokarmahub Software & Services Ltd.
Vadodara, Gujarat, India

Subject: Resignation from the Position of Internet Analyst

Dear Sir,

I am writing to formally submit my resignation from my position as Internet Analyst at Revokarmahub Software & Services Ltd.

I am grateful for the opportunity to work with the organization and for the valuable experience and professional skills I gained during my employment. My role provided me with opportunities to develop my technical troubleshooting, analytical, documentation, teamwork, and communication skills.

After careful consideration, I have decided to pursue new career opportunities that align more closely with my academic background and long-term career goals in Cybersecurity.

I will ensure that I complete my responsibilities and provide the necessary support during the notice period to make the transition as smooth as possible.

I sincerely appreciate the support and guidance I received from the management and my colleagues during my time with the organization. I wish Revokarmahub Software & Services Ltd. continued success in the future.

Thank you for your understanding and support.

Yours sincerely,

Rohan Parmar
